

Pip Mask

You will need:

Scissors, card, elastic,
glue if sticking
onto card.

Print out onto card, or stick onto thin card, then cut out around the dotted lines. Tie one end of elastic or string through the left hand hole with a knot, then thread the other end through the right hand hole. Place around your child's head and adjust the elastic to make it to the right length for you child. Tie a knot at the right hand hole, securing the mask to your child's head. Cut off any excess thread.
