

Make Spider Pom-Poms with Pip and Alan

You will need:

- Scissors
- Pom-pom disc template
- Cardboard
- Dark coloured Yarn
- Googly craft eyes
- Felt
- Craft glue

Please remember to get an adult to help you with this craft activity!

How to make:

1. Using your template, cut out two disc shapes from the cardboard and place them on top of each other.
2. Cut out a **VERY** long length of yarn, tie a knot around the discs at the start then begin winding your yarn around them.
3. Keep winding yarn around the discs until they are well covered and there's not much room left in the centre circle. Remember to tie off the beginning and ends of each piece of yarn you use to cover the discs!

4. Cut the yarn around the outside between the two cardboard discs.
5. Cut a long string of yarn and tie in a double knot in the middle of the two discs to hold the pom-pom together.
6. Remove the cardboard discs from your pom pom and trim the yarn to make a ball shape.
7. Cut out 8 thin strips of felt and use your glue to attach the strips to the pom-pom for legs.
8. Lastly glue on your googly eyes and hang up your spooky Spider pom-pom.

Disc Template
